### PG. 2

The Year in Review and what comes next.

## *Shifting Gears For the Climb ahead*

2025 Was an amazing year. We reached our funding goal for construction fo the school building. Now we can move on to funding the school itself. We spent the year bouncing all over the world, from Costa Rica to Nicaragua, to California, and Guatemala. We've shared the gospel everywhere we've been and see God do amazing things.

Next year we'll be joingin our new ministry partners in Guatemala as well as some old favorites as we dedicate the Structure of the Redeemed Steel Trade School at Casa De Gracia. We've still go a long way to go.

Does that mean we are stopping short term mission trips there? Absolutely not. There will still be opportunities to serve in short form, service oriented trips all over the world. However, for lasting impact, we feel that making the shift towards boots on the ground long term ministry like schools are the more effective way to go.

God is already providing proportionates all over the world to do just that. But it takes all of us. So, just because we've made it up the first step doesn't mean there isn't an entire staircase in front of us.

If you've already partnered with us financially, thank you. If you haven't, please consider do ing so. As of this writing, we've been able to share the gospel with thousands of people, reaching hundreds for Christ with

with only a handful of monthly supporters. We could reach thousands more and fund a school every three years if only 250 people contributed just 20 dollars a month.

Redeemed steel is entirely volunteer based, so if you'd like to serve or learn more, please feel free to reach out to [redemedsteel@gmail.com](mailto:redemedsteel@gmail.com) or call us at 828-289-6884

Please enjoy some of the pictures of things God has done in just the past few months.

Thank you for being a part of the Redeemed steel Family.
